

Device: 192.168.15.52:2000

Test time: 2019-03-18 02:44:08.762343

Test: GetVideoOutputs

Unknown error: (400, u'Bad Request')

<----->

Test: GetServiceCapabilities

Unknown error: (400, u'Bad Request')

<----->

Test: GetSerialPorts

Unknown error: (400, u'Bad Request')

<----->

Test: GetRelayOutputs

None

Response: [

<----->

Test: GetDigitalInputs

Unknown error: (400, u'Bad Request')

<----->

Test: GetAudioSources

None

Response: [

<----->

Test: GetAudioSourceConfigurationOptions

None

Response: (

<----->

Test: GetAudioSourceConfiguration

None

Response: (

<----->

Test: GetImagingSettings

None

Response: (

<----->

Test: GetVideoSources

None

Response: [

<----->

Test: GetVideoSourceConfigurations

None

Response: [

<----->

Test: GetVideoSourceConfigurationOptions

None

Response: (

<----->

Test: GetVideoSourceConfiguration

None

Response: (

<----->

Test: GetVideoEncoderConfigurations

None

Response: [

<----->

Test: GetVideoEncoderConfigurationOptions

None

Response: (

<----->

Test: GetVideoEncoderConfiguration

None

Response: (

<----->

Test: GetVideoAnalyticsConfigurations

The DUT did not send GetVideoAnalyticsConfigurationsResponse message

Response: [

<----->

Test: GetVideoAnalyticsConfiguration

list index out of range

<----->

Test: GetStreamUri

Unknown error: (400, u'Bad Request')

<----->

Test: GetSnapshotUri

Unknown error: (400, u'Bad Request')

<----->

Test: GetServiceCapabilities

None

Response: (

<----->

Test: GetProfiles

None

Response: [

<----->

Test: GetProfile

None

Response: (

<----->

Test: GetOSDs

Unknown error: (400, u'Bad Request')

<----->

Test: GetOSDOptions

Unknown error: (400, u'Bad Request')

<----->

Test: GetOSD

Unknown error: (400, u'Bad Request')

<----->

Test: GetMetadataConfigurations

None

Response: [

<----->

Test: GetMetadataConfigurationOptions

Unknown error: (401, u'Unauthorized')

<----->

Test: GetMetadataConfiguration

None

Response: (

<----->

Test: GetGuaranteedNumberOfVideoEncoderInstances

None

Response: (

<----->

Test: GetCompatibleVideoSourceConfigurations

None

Response: [

<----->

Test: GetCompatibleVideoEncoderConfigurations

None

Response: [

<----->

Test: GetCompatibleVideoAnalyticsConfigurations

Unknown error: (400, u'Bad Request')

<----->

Test: GetCompatibleMetadataConfigurations

None

Response: [

<----->

Test: GetCompatibleAudioSourceConfigurations

None

Response: [

<----->

Test: GetCompatibleAudioOutputConfigurations

Unknown error: (400, u'Bad Request')

<----->

Test: GetCompatibleAudioDecoderConfigurations

Unknown error: (400, u'Bad Request')

<----->

Test: GetAudioSources

None

Response: [

<----->

Test: GetAudioSourceConfigurations

None

Response: [

<----->

Test: GetAudioSourceConfigurationOptions

None

Response: (

<----->

Test: GetAudioSourceConfiguration

None

Response: (

<----->

Test: GetAudioOutputs

Unknown error: (400, u'Bad Request')

<----->

Test: GetAudioOutputConfigurations

None

Response: [

<----->

Test: GetAudioOutputConfigurationOptions

None

Response: (

<----->

Test: GetAudioOutputConfiguration

None

Response: (

<----->

Test: GetAudioEncoderConfigurations

None

Response: [

<----->

Test: GetAudioEncoderConfigurationOptions

global name 'config' is not defined

<----->

Test: GetAudioEncoderConfiguration

None

Response: (

<----->

Test: GetAudioDecoderConfigurations

Unknown error: (400, u'Bad Request')

<----->

Test: GetAudioDecoderConfigurationOptions

Unknown error: (400, u'Bad Request')

<----->

Test: GetAudioDecoderConfiguration

Unknown error: (400, u'Bad Request')

<----->

Test: CreateProfile

Unknown error: (400, u'Bad Request')

<----->

Test: AddVideoSourceConfiguration

Unknown error: (400, u'Bad Request')

<----->

Test: AddVideoEncoderConfiguration

Unknown error: (400, u'Bad Request')

<----->

Test: AddVideoAnalyticsConfiguration

Unknown error: (400, u'Bad Request')

<----->

Test: AddPTZConfiguration

The DUT did not add new AddPTZConfiguration

Response: N

<----->

Test: AddMetadataConfiguration

Unknown error: (400, u'Bad Request')

<----->

Test: AddAudioSourceConfiguration

Unknown error: (400, u'Bad Request')

<----->

Test: AddAudioOutputConfiguration

Unknown error: (400, u'Bad Request')

<----->

Test: AddAudioEncoderConfiguration

The DUT did not add new AddAudioEncoderConfiguration

Response: N

<----->

Test: AddAudioDecoderConfiguration

AddAudioDecoderConfiguration does not work, AttributeError

<----->

Test: GetServiceCapabilities

None

<----->

Test: SetNetworkDefaultGateway

The DUT did not set new NetworkDefaultGateway

Response: N

<----->

Test: SetHostname

The DUT returned "Onvif_test1" as its Hostname after SetHostname.

Response: O

<----->

Test: SetDiscoveryMode

Was Discoverable, Set NonDiscoverable, Left Discoverable

Response: N

<----->

Test: RemoveScopes

The DUT did not removed new scope, onvif://www.onvif.org/remove/scope

Response: [

<----->

Test: GetUsers

None

Response: [

<----->

Test: GetSystemUris

Unknown error: (400, u'Bad Request')

<----->

Test: GetSystemDateAndTime

None

Response: (

<----->

Test: GetSupportedServices

None

Response: {u'supported': True, u'name': u'Devicemgmt'}

<----->

Test: GetServices

The DUT send a valid response in both cases(IncludeCapability)

Response: [

<----->

Test: GetScopes

None

Response: [

<----->

Test: GetNetworkProtocols

None

Response: [

<----->

Test: GetNetworkInterfaces

None

Response: [

<----->

Test: GetNetworkDefaultGateway

None

Response: (

<----->

Test: GetNTP

None

Response: (

<----->

Test: GetHostname

None

Response: (

<----->

Test: GetDiscoveryMode

This operation got the discovery mode of a device

Response: D

<----->

Test: GetDeviceInformation

None

Response: (

<----->

Test: GetDNS

None

Response: (

<----->

Test: GetCapabilities

Type not found: 'tds:Namespace'

<----->

Test: CreateUsers

Unknown error: (400, u'Bad Request')

<----->

Test: AddScopes

Unknown error: (400, u'Bad Request')

<----->

Test: GetServiceCapabilities

None

Response: (

<----->

Test: GetEventProperties

None

Response: (

<----->

Test: CreatePullPointSubscription

Unknown error: (400, u'Bad Request')

<----->
